

XTM Translation Technology Presentation
LT Innovate, Brussels, 19th June 2012

Better Translation Technology

What is XTM?

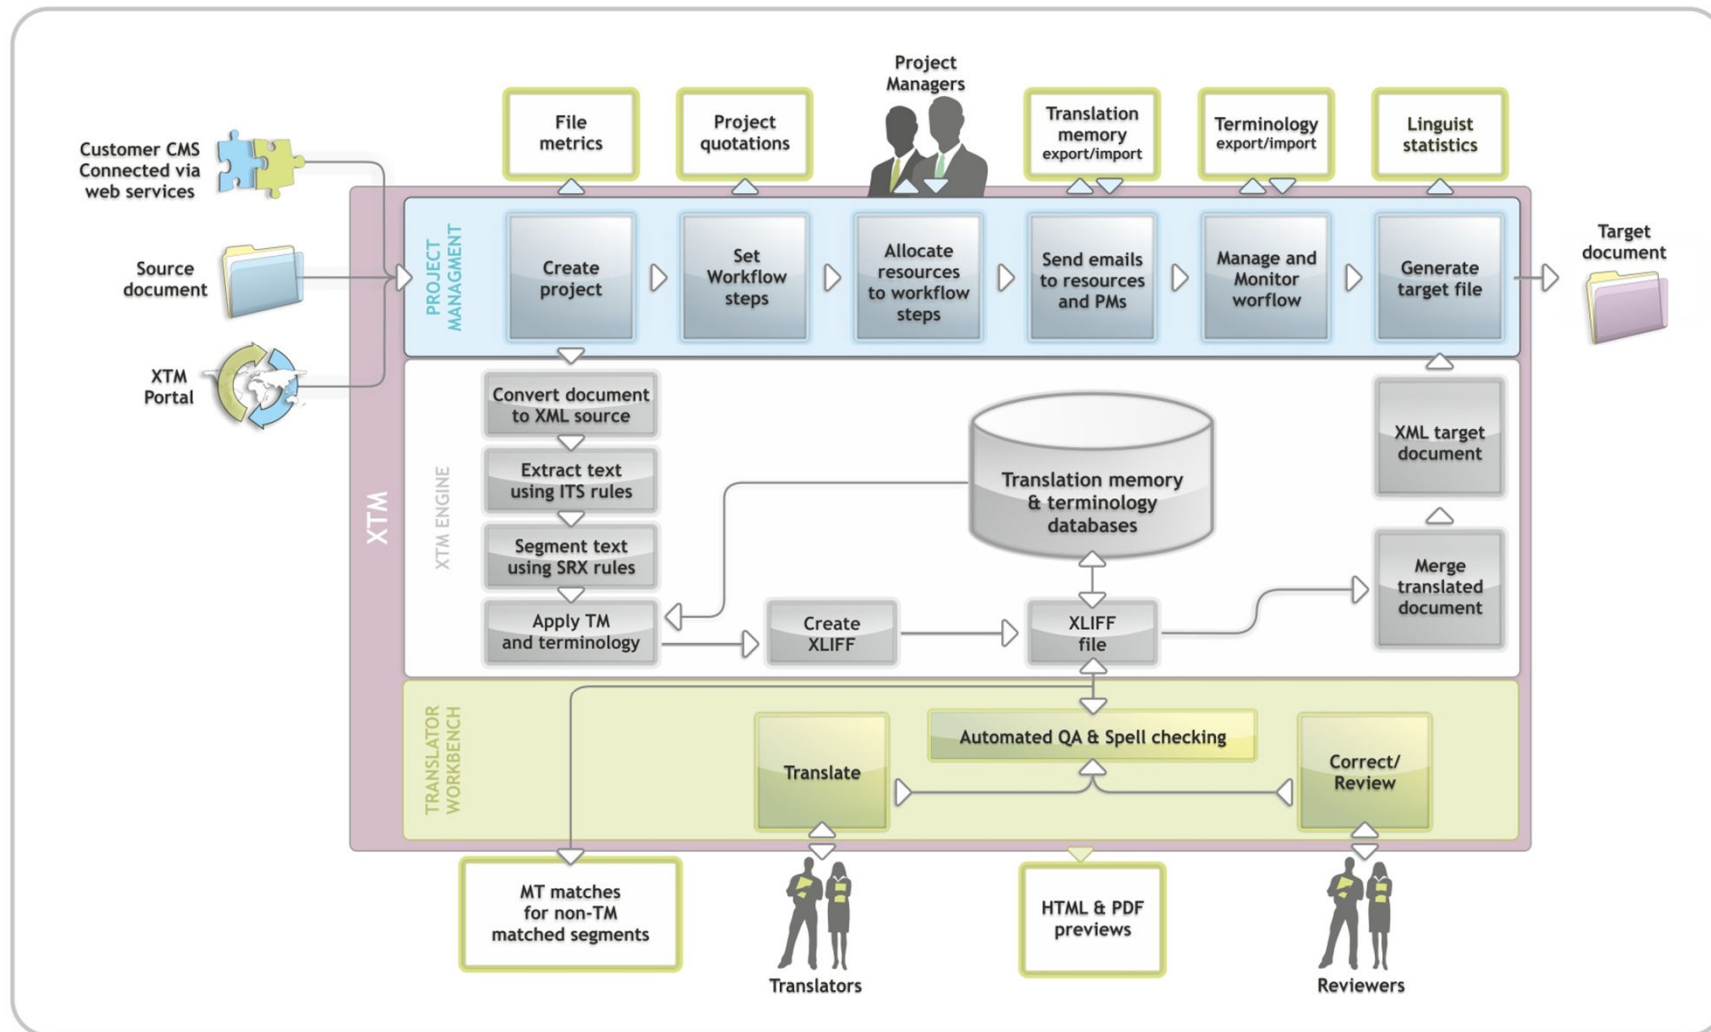

- Server-based, Cloud-based translation workflow solution, incorporating:
 - Modular, infinitely scalable design
 - Best-in-class file filters
 - Translation Memory
 - Browser-based CAT tool - XTM Workbench
 - Terminology Management
 - Advanced collaborative workflow infrastructure
 - Powerful web service and open APIs for integration with 3rd party systems

XTM Modules

- XTM Engine
- Workbench
- QA
- Terminology
- TM Manager
- Workflow
- Portal
- Open APIs

XTM Project Dataflow

XTM Principles

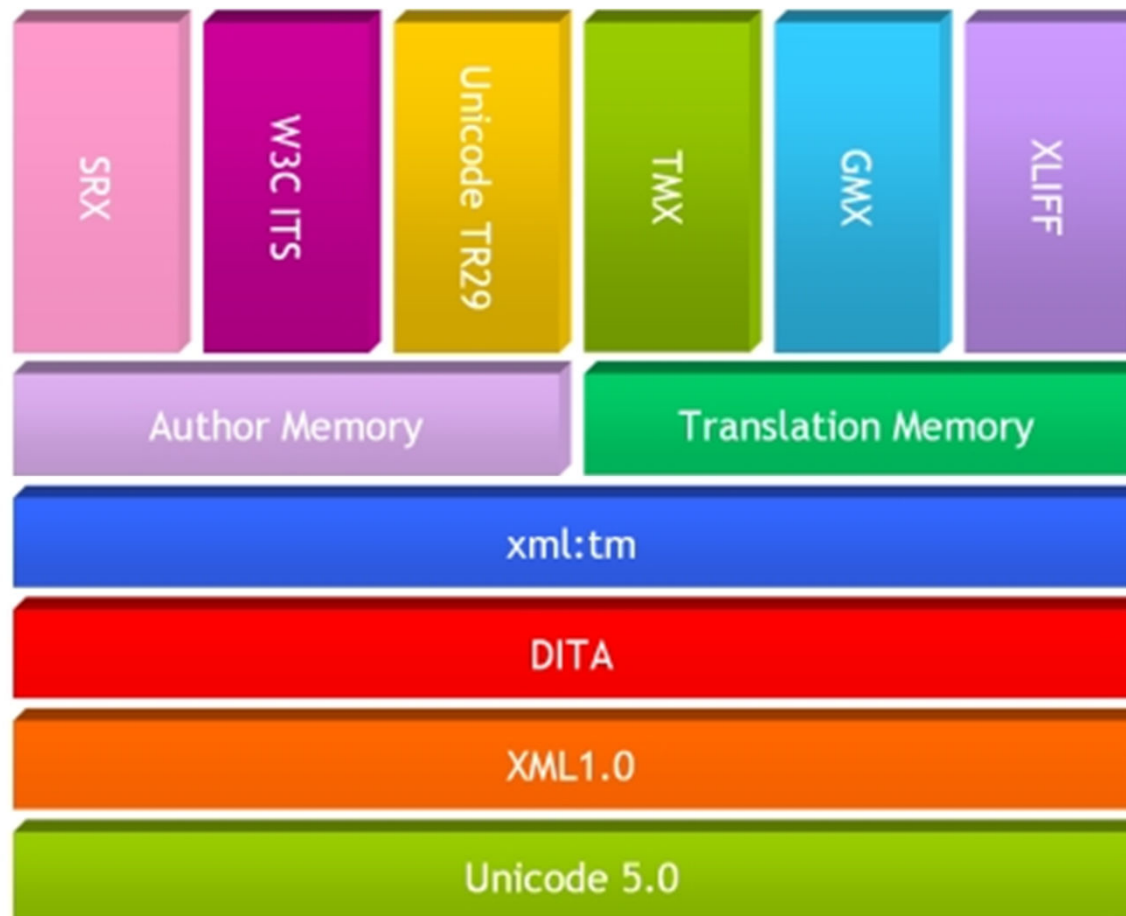

- Infinitely scalable modular architecture
- Platform independence
- SOA architecture
- Complete commitment to Open Standards: OAXAL
- Natively XML
- Totally browser based – no desktop software to install/maintain
- Fully functional browser based CAT tool: Translator Workbench
- Linguistically aware processing: morphological reduction

XTM Open Standards

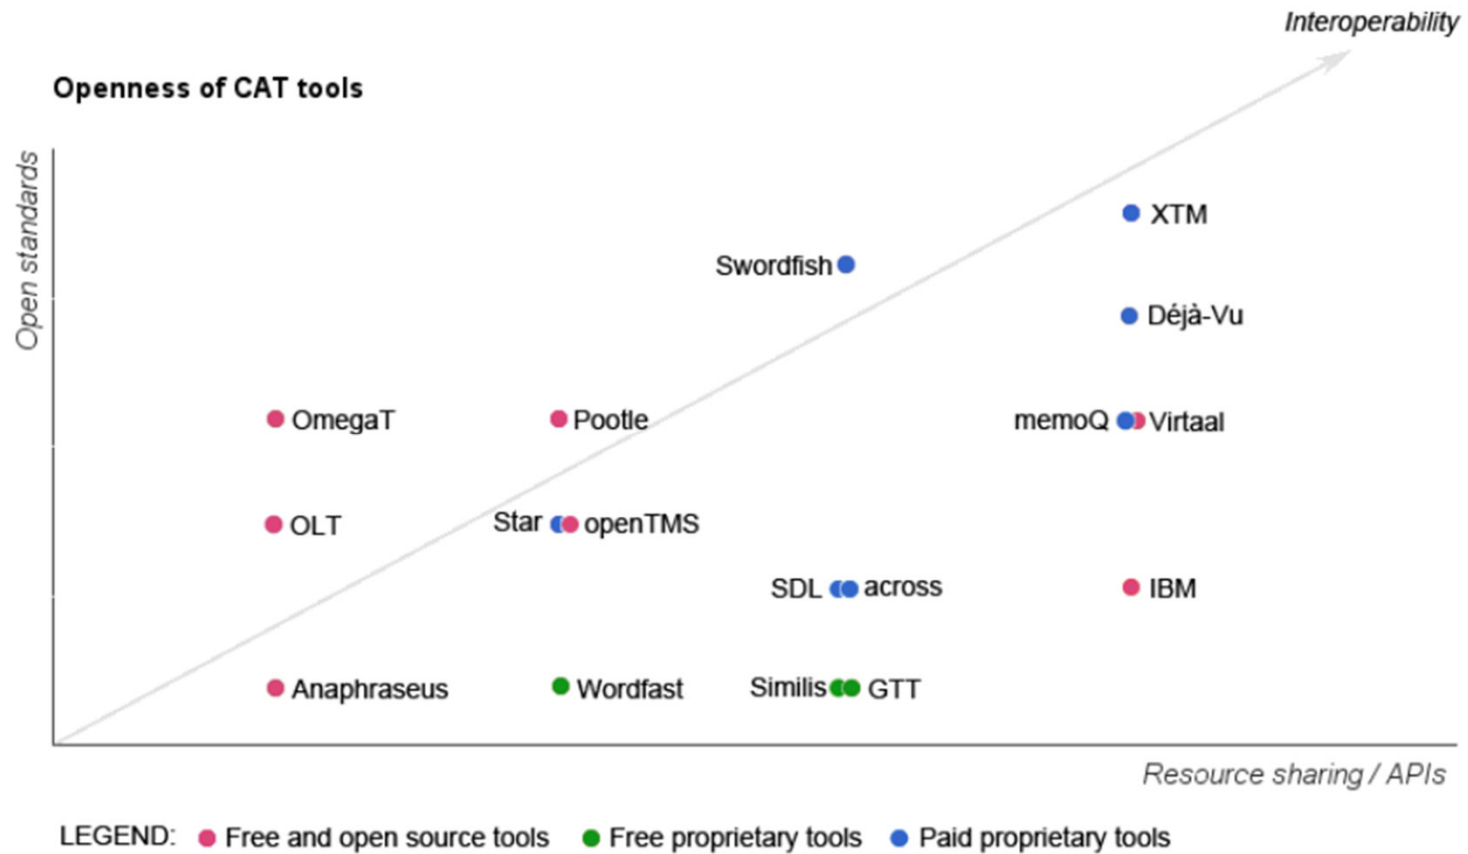

- Open Architecture for XML Authoring and Localization (OAXAL)
 - OASIS TC Standard
 - <http://docs.oasis-open.org/oaxal/V1.0/oaxal-v1.0.html>

OAXAL

XTM Interoperability

XTM Usage Examples

- Cloud, Hosted or in-house
- XTM can be used stand-alone or as part of a larger production workflow solution
 - As a stand-alone tool XTM will supplant other TMS and CAT tools
 - Using the web service API XTM can be integrated with:
 - Project management systems e.g. XTRF
 - Content Management Systems e.g. Ixiasoft, Alfresco, Bluestream
 - Any other type of complimentary business software solution

XTM Delivery

- XTM Cloud
 - Pay monthly
- XTM Hosted
 - Pay monthly
- XTM in-house
 - Pay monthly or one-off license

Why XTM Cloud?

- Very Short start up time
 - Can be deployed rapidly – in hours not days/weeks/months
 - Very easy to learn
 - High degree of automation
- Easier management
 - Upgrades, configuration, backups & support are all taken care of
- Pay As You Go
 - No large up-front financial outlay, no bulk licence purchase, flexible subscriptions
- Built-in Customer Web Portal
 - Customers can upload, order and pay online
- Sub-contracting
 - Sub-contract automatically to SLVs and MLVs
- Advanced technology
 - Compete on par with your largest competitors
 - Web services, Machine Translation (Google, Asia Online, Bing, Systran)

XTM Ease of Integration

- Alfresco
- Ixiasoft DITA CMS
- Docato / X-Hive DB
- Doczone.com
- easyDITA
- XTRF
- Plunet

Please note that XTM can be integrated with any CMS, ERP or PM solution
