

KantanLQR

Improving the Machine Translation Review Process
with Translation Automation

KantanMT.com

No Hardware. No Software. No Hassle MT.

Manual processes, the only option?

- ✓ Translation and Localization Project Managers are in constant search to speed up and simplify complex workflows.
- ✓ Processes for Machine Translation Improvement are often slow and manual

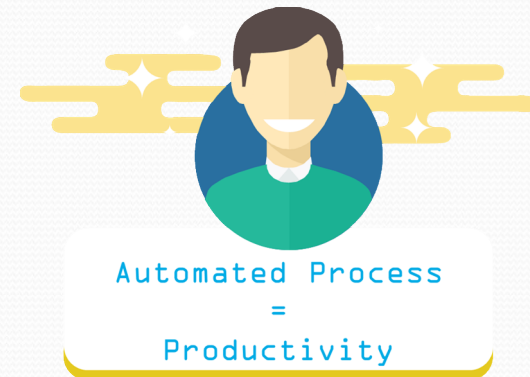

- File management and notifications by e-mail
- Human Evaluation forms created and filled in manually
- Results extracted and gathered by the PM
- Laborious report creation

The key to Productivity

The future of Productivity gains in the Machine Translation workflow:

- ✓ Smooth Automation Process
- ✓ with incorporated Review Tools
- ✓ and Comparative Performance

KantanLQR

A Quality Review tool dedicated to making human evaluation of machine translation (MT) faster, seamless and more efficient.

Its final goal is to dramatically reduce the time of engine re-training.

Simplicity, Quality, Efficiency
